TURKO-RUSSIAN DIPLOMACY AN ADEPT ONE

SEEMS 'SICK MAN' OF EUROPE HAS RECOVERED HEALTH

EUROPEAN STATESMEN SEEMED OUT MANEUVERED AND CHECKMATED AT LAUSANNE

NEAR EASTERN CONFERENCE STANDS ADJOURNED UNTIL WEDNESDAY, DEC. 6

(By United Press)
Lausanne, Dec. 5.—Out maneuvering of Europe's statesmen by the joint diplomacy of the Turks and Russians at Lausanne has nearly checkmated the allies.

The Near Eastern conference stands adjourned until Wednesday while Marquis Curzon, M. Barrere and Marquis DeGarroni cabled their governments for further instructions. The allies were unable to draw the Turks into a declaration of policy which they could oppose, and the only course now open to them is again to resort to ultimata.

The allied delegations do not conceal their anger with Tchiteherin who is considered the probable author of the present situation.

The scheme of Roumania to demilitarize the Dardanelles and the Black Sea is supported by the allies, but the Turks and Russians are endeavoring to cause embarrassment by making the allies come out into the open.

POISON MOONSHINE CREATES MUCH HAVOC

(By United Press)
St. Paul, Dec. 5.—Poison moonshine killed one man, sent two other victims to the city hospital in a serious condition, and seven to jail within the last 24 hours.

The dead man is Ralph Dinon, 21, St. Paul tenor, who was injured in a taxi-cab accident early Sunday, and died from injuries and acute alcoholism, according to Coroner Ingerson.

Nels Peterson, driver of the taxi, and Ambrose Lenertz, companions of Dinon, were arrested at noon today. Ralph Clifton, also was in the cab at the time of the accident.

Five men were arraigned in police court on charges of distributing poison alcohol. Two of them were arrested at the Snake House in the Minnesota Transfer district, giving their names as Pat McGarry and Geo. Williams. R. M. McColl, William Hanson and W. M. Graven were arrested at Central House. All five asked that their hearings be postponed until tomorrow.

CARPENTIER DENIES 'FRAME UP' CHARGE

(By United Press)
Paris, Dec. 5.—Georges Carpentier today denied any knowledge of a "frame up" in his recent fight with Battling Siki in which he lost the light heavyweight championship of the world.

"I fought the best that I knew how," said Carpentier, "and I know nothing of any arrangements made before the fight."

Descamps, Carpentier's manager, was astounded that any credence should be given Siki's statement that he had arranged to be knocked out in the fourth round.

"It is scandalous that anyone should challenge George's word against that of a lying negro," he said.

DOES NOT BELIEVE IN OMNIBUS BILL

(By United Press)
Washington, Dec. 5.—President Harding does not favor enactment by congress of a general omnibus bill for public buildings and improvements, it was said at the White House today.

Such a bill has been advocated in congress designed to provide appropriation for a large number of additional postoffice buildings in various parts of the country.

Clemenceau-Wilson in Dramatic Meeting

WINTER WORK STARTS AT THE MINES OF CUYUNA RANGE; MAHNOMEN STRIPPING

(By United Press)
With the ore shipping season of the Cuyuna iron range of Crow Wing county out of the way, winter work is now in progress. The normal amount of winter work will be done.

During the summer some fifteen mines were busy. These included the Maraca at Trommald; the Kennedy at Cuyuna; the Meacham, Croft, Portsmouth, Wearne and Armour No. 2 at Crosby; the Armour No. 1, Pennington, Bonnie Belle, Mahnomen, Hillcrest, Huntington near Ironton; the Sagamore at Riverton; Milford at Wolford.

The Maraca pit shipped some 150,000 tons by rail to the National Coke & Chemical Co. at Granite City, Ill., near St. Louis. It is a high phosphorous ore, 58 per cent iron, suitable for foundry iron. Ore was washed at the pit and loaded in special gondola cars, steel and wood, with hopper bottoms. The loads, when necessary, were dressed in the Brainerd yards of the Northern Pacific railway.

The Huntington also shipped all rail to Granite City. The Mahnomen shipped considerable manganese ore. Cars are run from the mine to the washing plant at the Rowe mine, the Mahnomen having bought the equipment. There the ore is crushed, screened and washed, which gives it a uniform physical

NORTHWEST GRIPPED BY COLD WAVE WITH NO RELIEF IN SIGHT

ALBERTA RECORDED 22 BELOW, ST. PAUL 2 ABOVE, DULUTH 2 BELOW

FARGO 10 BELOW, BISMARCK 8 BELOW, WILLISTON 12 BELOW

(By United Press)
St. Paul, Dec. 5.—Weather temperatures ranging down to 22 below zero in Alberta, the northwest was in the grip of a cold wave today with no prospect for relief.

"Not much change in temperature," the forecast said.

Light snow fell almost everywhere in the northwest except the Twin Cities which were slightly warmer than elsewhere.

Minimum areas were today: St. Paul, 2 above; Duluth, 2 below; Fargo, 10 below; Bismarck, 8 below; Williston, 12 below; Madison, 22 below; Helena, 6 below, and Edmonton, 8 below.

A low area coming in from the Pacific probably is responsible for the fact that it was less cold at Edmonton than at Madison, the weather bureau explained.

The high area with accompanying low temperatures extending from Alberta down the Missouri and Mississippi valleys as far as Tennessee.

HAVE COUNTY BOARD NAME SUPERINTENDENT

(By United Press)
St. Paul, Dec. 5.—Appointment of county school superintendents by county commissioners was recommended today by the legislative interim commission on education, as it resumed sessions at the capitol.

In all counties except those which have cities of the first class, it is planned to have county boards appoint superintendents instead of having them named at public elections.

Representatives of the state teachers association presented its legislative program to the commission today.

EACH REPUDIATED BY ELECTORATES OF HIS COUNTRY

BOTH HAD A HAND IN PREVIOUS REVISION OF MAP OF EUROPE

CLEMENCEAU, AS WILSON ONCE DID, HAS MADE HIS PLEA TO PEOPLE

(By United Press)
Washington, Dec. 5.—Two of the "Big Four" of the Versailles days came face to face today after three and a half years, when Georges Clemenceau called upon Woodrow Wilson.

Since the days when they remade the map of Europe, each has been repudiated by the electorates of his nation, yet each is held in high esteem by millions of his countrymen, and the visit of the Tiger of France to Wilson's home is considered the most significant of his trip to America.

Reputed personal enemies since Clemenceau's plans wrecked those of Wilson, and the latter's senate in turn upset all the Tiger's hopes, the two find themselves outstanding champions of a common cause—America's return to Europe.

Clemenceau, as Wilson once did, has made his plea direct to the people. Today he is in Washington to accomplish what he can to win official support for his cause. He called upon President Harding—a matter of formal courtesy—yet the Tiger had indicated he would not let the opportunity to present his cause go by.

But the meeting with Wilson was the one to which the country's ear was attuned; the drama of the two elderly men, one broken in health because he failed to heed the pleas of his friends to spare himself when he had a cause to fight for, the other 81 years old, scoffing at similar warnings, giving unlimited energy to a wide spread appeal for what he conceived to be the good of humanity.

The parallel of Clemenceau's aims and mission with that former one of Wilson, is all the more strange because they stood for different causes; each in his own way declaring for world democracy.

Yet, on the eve of his visit to Wilson's home, Clemenceau declared the principal thing he sought was American guarantees of the sanctity of the Rhine against German invasion. Wilson, co-author of the now defunct tri-partite treaty, received the war premier to talk this over.

Places Cause Before Pres. Harding

Washington, Dec. 5.—Georges Clemenceau today placed the cause of France directly before President Harding.

In a 45 minute conference at the White House the Tiger sought to convince the executive that America should again wield her mighty influence in old world affairs to save the continent from disaster.

Pleading for the United States to come back to Europe, the veteran statesman summed up for Mr. Harding the outstanding thoughts of the four main addresses which he has made in carrying his cause direct to the American people.

Mr. Harding met the Tiger in the oval room of the White House which serves as the executive's office.

After an exchange of friendly greetings, Clemenceau is said to have plunged directly into the story nearest his heart—the plight of his beloved France.

The president is understood to have informed him in general terms of America's desire to be helpful in bringing peace and economic stability throughout the world.

Whether the two great world figures went into detail was not revealed. Clemenceau came from the conference with a smile which seemed to say that he was well pleased with his talk with Mr. Harding.

Just after the White House confer-

IRISH INSURGENTS RESUME GUERRILLA WARFARE; MACHINE GUN FIRE RAGING

(By United Press)
Dublin, Dec. 5.—The Irish insurgents resumed guerilla warfare today on the eve of the actual establishment of the Free State.

Sixty rebels, who ambushed Free Staters west of Cork, were driven off with machine gun fire. They were closely pursued and heavy casualties inflicted as they fled into heavy woods near Brimoleague.

Further passage of the bills establishing the Free State by the British house of lords was delayed pending reports of an irregular coup planned in Dublin. The insurgents, these reports said, are prepared for a last desperate effort to prevent the new government from functioning.

Homes and offices of practically all

MADALYNE OBENCHAIN IS FREED FROM PRISON

(By United Press)
Los Angeles, Dec. 5.—Madalynne Obenchain is free today to resume her romantic career, or in her own words, "to live down the things that have happened."

The pretty woman, her face saddened by long imprisonment, almost ran from the jail to a waiting closed car outside, when the case against her and Arthur Burch was dismissed by the court on motion of District Attorney Lee Woolwine.

Woolwine told the court that inasmuch as five juries had disagreed on whether the two were involved in the midnight murder of J. Belton Kennedy, prominent broker, near his bungalow home, there was no hope for a verdict.

GREAT NORTHERN TRAIN JUMPS TRACK

200 PASSENGERS ESCAPE INJURY IN ACCIDENT AT CLEARWATER, NEAR ST. CLOUD

St. Cloud, Dec. 5.—More than 200 passengers en route from Minneapolis to Minneapolis on Great Northern train No. 8 had a narrow escape at Clearwater, 12 miles south of St. Cloud yesterday when the train jumped the track. No one was hurt.

Coaches and sleeping cars jumped from the rails and plowed along on the ties for a considerable distance but the cars remained upright. Some occupants of the train were bruised and severely jolted.

Spreading trucks on a car loaded with fish, attached to the train, caused the car to leave the rails and coaches following also were derailed.

Passengers were transferred to a train which followed and were brought to Minneapolis over the Northern Pacific. The wrecked train was due to arrive in Minneapolis at 7:30 a. m. and was behind schedule the wreck occurring at 7:25 a. m. The passengers were delayed five hours and wrecking crews from St. Cloud reestablished traffic shortly before noon.

CONVICT BAND KILLED MILLIONAIRE AUTO MAN

(By United Press)
Chicago, Dec. 5.—A band of ex-convicts murdered Joe Lanus, wealthy automobile dealer, who was found shot to death in his garage, according to an alleged confession obtained by police today.

Four men and a woman were held pending further investigation of the case. The alleged statement was made by Morris Borgosowski, and named Larry Heffernan as the man who fired the shots which killed Lanus.

ence it was announced that the Tiger's call on Woodrow Wilson had been postponed until 5 o'clock tomorrow afternoon.

GREATER CROPS ARE PRODUCED; BUYING POWER DECREASED

FARMERS REVEL IN ABUNDANT CROPS, BUT MAKE MUCH LESS MONEY

HIGH FREIGHT RATES, HIGH WAGES, ECONOMIC DEPRESSION MILITATE

(By United Press)
Washington, Dec. 5.—Farmers produced greater crops this year than in almost any year of the past decade, but their purchasing power instead of following a proportionate increase, registered a sharp decrease, Secretary of Agriculture Wallace declared today in his annual report.

Farm products this year fell below the pre-war level while other commodities remained at from 50 to 100 per cent above the level of the 1914 price, Wallace stated.

Wallace diagnosed the cause for the condition of the farmers and the discrepancy between farm products and other commodities as over-production of many farm crops, high freight rates, high wages in industry, economic depression, depreciated currency in Europe, and generally unsettled conditions.

While there is no over-production from the standpoint of the world's needs, nevertheless the farmers over-produced from the standpoint of maintaining reasonably high prices, he held.

Industrial labor, Wallace pointed out, has been able to keep up with most of the gains in wages made during the war period; farmers on the other hand have not been able to keep prices up. Consequently, while farmers get a smaller return for their crops, they were forced to pay the same high prices for clothing, fuel, farm implements and other necessities. Increased taxes also help aggravate the condition of agriculture, Wallace said.

"The cotton country is better off than three years ago," the report stated. "The sheep industry is getting out of the depression. Fattened hogs and cattle has been fairly profitable."

MARKET REPORT

(By United Press)
South St. Paul Livestock

South St. Paul, Dec. 5.—Estimated receipts at the union stockyards today: Cattle, 4,000; calves, 2,000; hogs, 20,500; sheep, 2,000; cars, 402.

Cattle—Beef steers, \$4.75 to \$5; cows and heifers, \$3 to \$6.50; canners and cutters, \$2.25 to \$3.25; butcher bulls, \$3.25 to \$4; veal calves, \$4 to \$5.25; stock feeding steers, \$3.50 to \$7. Hogs—\$7 to \$7.95.

Sheep—Lambs, \$9 to \$14.50; ewes, \$2 to \$6.50; wethers, \$5.50 to \$9; yearlings, \$9 to \$12.75; bucks, \$2.50 to \$3.50.

Minneapolis Cash Grain

Wheat—No. 1 Dark Northern \$1.16½ to \$1.23½; to arrive, \$1.16½. No. 1 Northern, \$1.15½ to \$1.22½; to arrive, \$1.15½.

Corn—No. 3 Yellow, 63½¢ to 64½¢; to arrive, 62¾¢. Oats—No. 3 White, 37½¢ to 39½¢; to arrive, 36½¢ to 37½¢. Barley—Choice, 60¢ to 63¢. Rye—No. 2, 77½¢; to arrive, 77½¢. Flaxseed—Fancy, \$2.48¼ to \$2.50¼; to arrive, \$2.46¼.

St. Paul Hay Market

Timothy—No. 1, \$18; No. 2, \$16; No. 3, \$12. Alfalfa—Standard, \$22; No. 1, \$16. Clover Mixed—No. 1, \$16; No. 2, \$13. Midland Hay—No. 1, \$12; No. 2, \$9; No. 3, \$8.

Chicago Potato Market

Chicago, Dec. 5.—Receipts 76 cars. Minnesota Round Whites, sacked and bulk, 75¢ to 85¢. Minnesota and North Dakota Red River Whites, sacked, 80¢ to 85¢.

Clemenceau-Wilson in Dramatic Meeting

WINTER WORK STARTS AT THE MINES OF CUYUNA RANGE; MAHNOMEN STRIPPING

(By United Press)
With the ore shipping season of texture. It makes a very desirable ore and can be run from 5 per cent to 20 per cent manganese. Edward P. Scallon, of Crosby, is superintendent of this mine.

At the Sagamore ore is high in moisture. The operators completed a drying plant costing a quarter of a million dollars in which all ore is heated and dried, reducing the moisture content from 8 to 10 per cent. It formerly carried 20 per cent moisture.

The tonnage shipped from the Cuyuna iron range this year may run around 1,250,000 tons, it is estimated unofficially.

The Hillcrest stopped shipping two months ago, but kept a force busy on lean ore for a period. Stockpiling is on at the Pennington, the Armour No. 2, Milford and Kennedy. Shipments at the Sagamore mine have been considerably reduced, and have about ceased at the Maraco and Mahnomen. At the Mahnomen pit Supt. Edward P. Scallon has started a steam shovel on stripping work. The Portsmouth is also now engaged in stripping.

The Bonnie Belle has been an extensive shipper to the Zenith Furnace Co. at Duluth. There are rumors afloat that the Algoma, a manganese mine idle for quite a period, may resume work.

NORTHWEST GRIPPED BY COLD WAVE WITH NO RELIEF IN SIGHT

ALBERTA RECORDED 22 BELOW, ST. PAUL 2 ABOVE, DULUTH 2 BELOW

FARGO 10 BELOW, BISMARCK 8 BELOW, WILLISTON 12 BELOW

o'clock at the home of Mrs. S. M.
Fredstrom, 807 South 6th street. All
the ladies should try, and be there.
Regular prayer meeting on Thurs-
day evening at 7:45 o'clock.

SCHOOL OF MARRIAGE
FOUNDED IN CLEVELAND

Cleveland, Dec. 2—A school of
marriage has just been founded in
Cleveland.

Its director, Mrs. Jessie A. Foulk, is
a social worker.
She seeks to educate young men and
women in the art of marrying happily
and to assist those whose marriages
appear to be mistakes, "to make the
best of it."

She calls her school the bureau of
domestic happiness.

According to Mrs. Foulk, 90 per cent
of the marriages in Cleveland are un-
happy.

She makes this statement after 20
years' experience in dealing with mar-
ried people as a social worker.

"I know that this is true," she said.
"Of course there are some husbands
and wives who will not admit it. They
lead miserable existences in their
homes quarreling and bickering con-
tinually and at the same time trying
to make others believe they are happy."
"But in their hearts they know they
have grown to hate each other—it is
merely a case of toleration. They know
their love has died and their marriage
has become a mockery."

"I am convinced all this unhappi-

The Latest For Skating Wear

Lovers of skating will find much knitted wear to their comfort. The
girls will find a white slipover sweater with black trimmings, brushed wool
gauntlets, and knitted tam—completing an attractive and comfortable cos-
tume. For the man, a white coat sweater, brushed wool gloves, hockey cap,
and heavy golf hose, compose the proper garments for skating wear.

ness is unnecessary. I firmly believe
that the cause of suffering and discon-
tent and discord in marriage is simply
a lack of understanding of what mar-
riage is—or, rather, what it should
and can be.

Mrs. Foulk asserted that most un-
happy marriages are caused because
young people are left to stumble upon
love blindly.

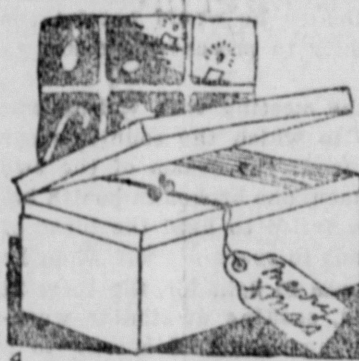

She gives the following advice:
Don't permit moonlight and kisses
to select your husband or wife. Weigh
his or her faults and compare the re-
sult with the good points.

Don't turn your children out into the
world without telling them the seri-
ousness of marriage.

Have an ideal. Don't choose any one
person as your ideal but select the
qualities which the one you marry
must have. Be sure that you realize
just what marriage will mean. And

hold to your ideal.
"When a man understands his wife,"
she concluded, "and a wife under-
stands her husband, divorce will be-
come unnecessary."

Those Beneficial Blues.
Here's a doctor saying a good word
for the blues. As a means of calming
excitable temperaments and highly
strung nerves, an occasional gloomy
outlook on life, he says, is distinctly
beneficial. And of course we all know
how profitable it is for dentists to feel
down in the mouth.—Boston Evening

RED CROSS HAS ANNUAL MEETING

Mrs. J. A. Thabes, Chairman, Presided at Session in Chamber of Commerce Rooms

THANK TREASURER FOR REPORT Election of Directors—Chairman Gives Report on Work Done in the Past Year

The annual meeting of the Brainerd Chapter, American Red Cross, was held in the Chamber of Commerce rooms at 3 p. m. November 28. Mrs. J. A. Thabes, chairman, presided. Minutes of the last annual meeting were read and approved, as were also the secretary's and treasurer's annual reports, which were ordered placed on file.

A rising vote of thanks was extended to the treasurer, G. D. LaBar for his lengthy and complete report. Mrs. Bertha Thiviot, one of the first members of the Red Cross in the city and a faithful director was the first to pay her dues for the coming Roll Call.

Mrs. J. A. Thabes spoke concerning the work of the past year, which consisted in financing the county nurse until March 1st, 1922. At this time a committee from the Red Cross appealed to the county commissioners to take over the work.

The commissioners voted to appropriate \$1,000 towards the nurses salary until January 1st, 1923, and assume the office expense and maintenance of the nurse's car, as long as the county nurse was retained. The remainder of the nurse's salary was to be assumed by the Brainerd Chapter, American Red Cross.

This year, in lieu of the assistance of the nurse at the tuberculosis clinics and her field work for the Deerwood sanatorium, the Red Cross receives from the state Tuberculosis Commission \$500, which in turn is used toward their share of the nursing work.

The main portion of the money from the 1921 Roll Call was expended for the home service for disabled soldiers in Crow Wing county. Recognition was given to the excellent work given in this service by A. A. Gieriet and Miss Gertrude Smith. Toward this service for ex-soldiers the Brainerd Red Cross contributed \$800 from its savings fund.

The following directors whose terms expired at this time were unanimously chosen to succeed themselves for another term of three years: Mrs. J. A. Thabes, Mrs. R. R. Gould, Rev. A. C. Smith, R. R. Wise, Mrs. W. H. Gemmell, W. C. and J. P. Anderson.

Miss Thora Ingebritson, county nurse, spoke briefly of her experience abroad, and made a plea for the Roll Call which aroused much interest on account of her personal work in Red Cross service in Czechoslovakia. Miss Ingebritson then spoke of her method in the county work, which is to remain out in the rural communities as much as possible. She often stays with the rural teachers all night, not returning to Brainerd until the week end. She spoke most appreciatively of the kind hospitality and cooperation which has been given her by the people of the county generally.

There being no further business for this body, the meeting adjourned to be followed immediately by a meeting of the directors for the purpose of electing officers for the coming year. The following were unanimously chosen to succeed themselves: Mrs. J. A. Thabes, chairman, G. W. Chadbourne, secretary; G. D. LaBar, treasurer. Mrs. Thabes protested against her re-election, expressing the feeling that someone else could now better carry on the work. All present, however, felt equally sure that having carried on the work so successfully during the

MAN WANTED in Crow Wing County

The Lange Company wants man in Crow Wing County territory, also City of Brainerd to sell their large line of remedies, extracts, spices, tea, coffee, pure food products, etc. Minnesota territory being rapidly taken up. INFANT WELFARE WORK IS SHOWN

Its Value Illustrated by Films Exhibited at Meeting of Child Welfare Committees

MISS ALEXANDER WAS SPEAKER

Representative of State Board of Health Told How Maternal Mortality Can be Reduced

Monday afternoon at the Chamber of Commerce there was held a meeting of representatives of various child welfare committees of the city. Miss Alexander, coming from the Child Hygiene Division of the State Board of Health, told of methods whereby maternal mortality might be reduced.

A film was shown illustrating the value of infant welfare work. The case was taken of an efficient business man who was extremely interested in the breeding of fine livestock, but thought that mother love and instinct was sufficient in the rearing of children. He was converted through the illness of his own little granddaughter.

Miss Alexander will be at the high school meeting tonight, and will show a film illustrating county work.

Announcement was made also at the meeting yesterday of the dinner at the Methodist church basement under the auspices of the child welfare committee of the League of Women Voters, on Tuesday, December 12th, at 6 o'clock, also of the course in child welfare problems, which will be conducted after the holidays by Miss Engsborg.

This course will be held for one hour on Tuesday afternoon beginning at 2:30, and covering a period of six weeks. There will be no expense attached to the course.

IRONTON

A. H. Proctor was in Moose Lake on business.

P. B. Dower visited his parents in Wadena.

Miss Nellie Gordon visited friends in St. Cloud.

D. B. McAlpine and William Seafeld were in St. Paul on business matters.

Miss Mable Bragg of Walker visited her aunt, Mrs. R. T. Westcott. Theodore Harris, who has been at Ironton all summer as trainmaster, has gone to his home in Duluth.

E. R. Hathaway, who has been telegraph operator at the depot since last spring has gone to Billings, Montana.

Mr. and Mrs. Charles Lundgren, Jack Lundgren and Alfred Jacobson have returned from Crystal Falls, Mich., where they were called by the death of Mrs. Lundgren's mother.

Paul Wadsten, master mechanic at the Milford mine, dislocated his hip in an accident. He was caught and crushed between the bottom of the skip and a plank on which he was

lying while doing some repair work.

The bazaar and supper given by the Altar Society of St. Joseph's Catholic church at the village hall cleared over \$500. Mrs. Arthur Mayheu won the bed spread and A. D. LaViolette the quilt.

Ironton sent a large delegation to Brainerd on Sunday to attend the Elks' memorial services.

Forbes-Carlson

A very pretty home wedding was solemnized in St. Paul Saturday, when Miss Mabel Carlson, daughter of Mrs. Minnie Carlson of Brainerd, became the bride of Russell Forbes. The ceremony took place at the home of Mrs. Tressman, the bride's sister, only immediate relatives and friends being present.

Miss Carlson wore a traveling suit and carried a beautiful bridal bouquet.

Following the pleasing ceremony a wedding supper was served, after which the newlyweds left for Chicago on their honeymoon. Mr. and Mrs. Forbes will make their home in St. Paul.

Out-of-town guests included Mrs. Minnie Carlson and Miss Sigrid, mother and sister of the bride, and two sisters, Anna and Ida, from Portland, Oregon.

The bride is well known in Brainerd, where she attended the public schools, later taking a course in the Little Falls Business College. She held position as stenographer with Henry I. Cohen and the N. P. shops before going to St. Paul where she has been employed in the general offices of the Northern Pacific.

The Dispatch extends congratulations and best wishes to the happy couple.

Keen Sense of Smell.

J. L. writes that while he was riding on an East Boston tunnel car a little boy in the seat in front of him said to his mother "Oh, mamma, I know we are under the water now, for I can smell the fish."—Boston Evening Transcript.

D. E. WHITNEY
DIRECTOR OF FUNERALS
720 FRONT ST.
BRAINERD, MINN.

JOHN NELSON PROMOTED

Forester Formerly in Charge of the Brainerd Territory is Now District Supervisor of Rangers

Friends of John Nelson, formerly forester in charge of the Brainerd territory, will be glad to know that Mr. Nelson has received a promotion and is now district supervisor of rangers, with headquarters in Duluth.

A month or six weeks ago, he was transferred to northern St. Louis county, where he was to assist in some timber marking, but was taken off from this work just before Thanksgiving and promoted to his present position.

It is the plan of the department to divide the Duluth district into smaller sections, and it is probable that Mr. Nelson will be transferred to Bemidji at that time to have charge of a newly made district which will also include Brainerd.

M. R. Berg, who has been working in the Brainerd office under Mr. Nelson, and who has been in charge since his superior officer has been away, has also been promoted and is now forest ranger for this section.

Mr. Nelson proved himself a most efficient ranger, and won quite a name for himself through fighting timber fires in this section. He made many friends while in Brainerd who will be glad to hear of his good fortune in receiving a higher post, although it is with regret that he is being lost to this community.

RED CROSS HAS ANNUAL MEETING

Mrs. J. A. Thabes, Chairman, Presided at Session in Chamber of Commerce Rooms

THANK TREASURER FOR REPORT

Election of Directors—Chairman Gives Report on Work Done in the Past Year

The annual meeting of the Brainerd Chapter, American Red Cross, was held in the Chamber of Commerce rooms at 3 p. m. November 28. Mrs. J. A. Thabes, chairman, presided. Minutes of the last annual meeting were read and approved, as were also the secretary's and treasurer's annual reports, which were ordered placed on file.

A rising vote of thanks was extended to the treasurer, G. D. LaBar for his lengthy and complete report. Mrs. Bertha Thewit, one of the first members of the Red Cross in the city and a faithful director was the first to pay her dues for the coming Roll Call.

Mrs. J. A. Thabes spoke concerning the work of the past year, which consisted in financing the county nurse until March 1st, 1922. At this time a committee from the Red Cross appealed to the county commissioners to take over the work.

The commissioners voted to appropriate \$1,000 towards the nurses salary until January 1st, 1923, and assume the office expense and maintenance of the nurse's car, as long as the county nurse was retained. The remainder of the nurse's salary was to be assumed by the Brainerd Chapter, American Red Cross.

This year, in lieu of the assistance of the nurse at the tuberculosis clinics and her field work for the Deerwood sanatorium, the Red Cross receives from the state Tuberculosis Commission \$500, which in turn is used toward their share of the nursing work.

The main portion of the money from the 1921 Roll Call was expended for the home service for disabled soldiers in Crow Wing county. Recognition was given to the excellent work given in this service by A. A. Gieriet and Miss Gertrude Smith. Toward this service for ex-soldiers the Brainerd Red Cross contributed \$800 from its savings fund.

The following directors whose terms expired at this time were unanimously chosen to succeed themselves for another term of three years: Mrs. J. A. Thabes, Mrs. R. R. Gould, Rev. A. C. Smith, R. R. Wise, Mrs. W. H. Gemmell, W. C. and J. P. Anderson.

Miss Thora Ingebritson, county nurse, spoke briefly of her experience abroad, and made a plea for the Roll Call which aroused much interest on account of her personal work in Red Cross service in Czechoslovakia. Miss Ingebritson then spoke of her method in the county work, which is to remain out in the rural communities as much as possible. She often stays with the rural teachers all night, not returning to Brainerd until the week end. She spoke most appreciatively of the kind hospitality and cooperation which has been given her by the people of the county generally.

There being no further business for this body, the meeting adjourned to be followed immediately by a meeting of the directors for the purpose of electing officers for the coming year. The following were unanimously chosen to succeed themselves: Mrs. J. A. Thabes, chairman, G. W. Chadbourne, secretary; G. D. LaBar, treasurer. Mrs. Thabes protested against her re-election, expressing the feeling that someone else could now better carry on the work. All present, however, felt equally sure that having carried on the work so successfully during the

MAN WANTED

in Crow Wing County

The Lange Company wants a man in Crow Wing County territory, also City of Brainerd, to sell their large line of remedies, extracts, spices, tea, coffee, pure food products, etc. Minnesota territory being rapidly taken up. This offers an exceptional opportunity to the right man, as he steps right into an old, established, profitable trade, without cost. Write us at once for full particulars.

war that it was their earnest wish that she continue for a time until the vision of the Red Cross as a peace time and peace making organization became clear and established in the minds of the people.

Mrs. Thabes announced that Mrs. E. J. Quinn had been selected as county chairman for the 1922 Roll Call. During the meeting two little boys came in with \$30.83 from the Whittier school, with the message from Miss Louise Barrett that it represented 100% contributions from the teachers and pupils in the school.

The meeting adjourned at 4:30. Following is the recapitulation of the treasurer's report.

Oct. 31st, 1921, balance on hand	\$ 749.55
Receipts from G. W. Chadbourne, secretary	1,436.12
Receipts from G. W. Chadbourne, deposit, August 15, 1921	10.00
Withdrawn from Savings Trust Fund	800.00

	\$2,995.70
Disbursements	2,865.38
Balance on hand	\$ 130.32

First National Bank, Brainerd, Minnesota

I hereby certify that there was a balance of \$658.82 at the opening of business today standing to the credit of Brainerd Chapter, American Red Cross. The bank balance is \$528.50 more than shown by the foregoing report and is accounted for by outstanding orders No. 822 to Miss Marie Grimes of \$100 and No. 826 to American Red Cross, \$428.50 still unpaid.

Respectfully,

(Signed) A. J. HAYES,

Cashier

Nov. 28th, 1922.

In addition to the above cash balance of \$130.32 we also have on hand in a savings account in the First National Bank of Brainerd, \$1417.89 together with accumulated interest at 4% since July 1st, 1922.

(Signed)

GEO. D. LaBAR,

Treasurer

In addition to the open account balance of \$658.82 standing to the credit of Brainerd Chapter, American Red Cross, there is on deposit in this bank \$1417.89 for which we have issued savings book No. 5285. There is also accumulated interest on this savings account since July 1st, 1922.

Respectfully,

(Signed) A. J. HAYES,

Cashier

Won Pocketbook

Mrs. C. N. Olsen of 1223 Rosewood street, having made the largest purchase at the Specialty Shop, 707 Laurel street, on a Saturday, was awarded the prize of a \$10.50 pocketbook. The contest attracted a great deal of interest among the patrons of this store.

The storm is coming.

INFANT WELFARE WORK IS SHOWN

Its Value Illustrated by Films Exhibited at Meeting of Child Welfare Committees

MISS ALEXANDER WAS SPEAKER

Representative of State Board of Health Told How Maternal Mortality Can be Reduced

Monday afternoon at the Chamber of Commerce there was held a meeting of representatives of various child welfare committees of the city. Miss Alexander, coming from the Child Hygiene Division of the State Board of Health, told of methods whereby maternal mortality might be reduced.

A film was shown illustrating the value of infant welfare work. The case was taken of an efficient business man who was extremely interested in the breeding of fine livestock, but thought that mother love and instinct was sufficient in the rearing of children. He was converted through the illness of his own little granddaughter.

Miss Alexander will be at the high school meeting tonight, and will show a film illustrating county work.

Announcement was made also at the meeting yesterday of the dinner at the Methodist church basement under the auspices of the child welfare committee of the League of Women Voters, on Tuesday, December 12th, at 6 o'clock, also of the course in child welfare problems, which will be conducted after the holidays by Miss Engsborg.

This course will be held for one hour on Tuesday afternoon beginning at 2:30, and covering a period of six weeks. There will be no expense attached to the course.

IRONTON

A. H. Proctor was in Moose Lake on business.

P. B. Dower visited his parents in Wadena.

Miss Nellie Gordon visited friends in St. Cloud.

D. B. McAlpine and William Seafeld were in St. Paul on business matters.

Miss Mable Bragg of Walker visited her aunt, Mrs. R. T. Westcott. Theodore Harris, who has been at Ironton all summer as trainmaster, has gone to his home in Duluth.

E. R. Hathaway, who has been telegraph operator at the depot since last spring has gone to Billings, Montana.

Mr. and Mrs. Charles Lundgren, Jack Lundgren and Alfred Jacobson have returned from Crystal Falls, Mich., where they were called by the death of Mrs. Lundgren's mother.

Paul Wadsten, master mechanic at the Millford mine, dislocated his hip in an accident. He was caught and crushed between the bottom of the skip and a plank on which he was

lying while doing some repair work.

The bazaar and supper given by the Altar Society of St. Joseph's Catholic church at the village hall cleared over \$500. Mrs. Arthur Mayheu won the bed spread and A. D. LaVictoire the quilt.

Ironton sent a large delegation to Brainerd on Sunday to attend the Elks' memorial services.

Forbes-Carlson

A very pretty home wedding was solemnized in St. Paul Saturday, when Miss Mabel Carlson, daughter of Mrs. Minnie Carlson of Brainerd, became the bride of Russell Forbes. The ceremony took place at the home of Mrs. Tressman, the bride's sister, only immediate relatives and friends being present.

Miss Carlson wore a traveling suit and carried a beautiful bridal bouquet.

Following the pleasing ceremony a wedding supper was served, after which the newlyweds left for Chicago on their honeymoon. Mr. and Mrs. Forbes will make their home in St. Paul.

Out-of-town guests included Mrs. Minnie Carlson and Miss Sigrid, mother and sister of the bride, and two sisters, Anna and Ida, from Portland, Oregon.

The bride is well known in Brainerd, where she attended the public schools, later taking a course in the Little Falls Business College. She held position as stenographer with Henry I. Cohen and the N. P. shops before going to St. Paul where she has been employed in the general offices of the Northern Pacific.

The Dispatch extends congratulations and best wishes to the happy couple.

Keen Sense of Smell.

J. L. writes that while he was riding on an East Boston tunnel car a little boy in the seat in front of him said to his mother "Oh, mamma, I know we are under the water now, for I can smell the fish."—Boston Evening Transcript.

D.E. WHITNEY
DIRECTOR OF FUNERALS
720 FRONT ST.
BRAINERD, MINN.

JOHN NELSON PROMOTED

Forester Formerly in Charge of the Brainerd Territory is Now District Supervisor of Rangers

Friends of John Nelson, formerly forester in charge of the Brainerd territory, will be glad to know that Mr. Nelson has received a promotion and is now district supervisor of rangers, with headquarters in Duluth.

A month or six weeks ago, he was transferred to northern St. Louis county, where he was to assist in some timber marking, but was taken off from this work just before Thanksgiving and promoted to his present position.

It is the plan of the department to divide the Duluth district into smaller sections, and it is probable that Mr. Nelson will be transferred to Bemidji at that time to have charge of a newly made district which will also include Brainerd.

M. R. Berg, who has been working in the Brainerd office under Mr. Nelson, and who has been in charge since his superior officer has been away, has also been promoted and is now forest ranger for this section.

Mr. Nelson proved himself a most efficient ranger, and won quite a name for himself through fighting timber fires in this section. He made many friends while in Brainerd who will be glad to hear of his good fortune in receiving a higher post, although it is with regret that he is being lost to this community.

STATE CONSTABULARY GOES OVER

The Minnesota crime commission in recommending that the question of calling into existence a state constabulary be given a further two years of investigation has taken a sensible position. During the crime wave of one year ago, which has not yet receded to any marked degree though there is some slight evidence of a let up, there were those who believed that a state police force should be organized and used to check the growing criminal tendencies of the state. This belief was held by many in our commonwealth, including many who are concerned with law enforcement and legal procedure.

On the other hand there were many who were convinced that the taking of the police powers away from municipalities and counties and placing them under the direction of the state would result in adding new problems, even though some good might come out of the change.

The League of Municipalities, meeting at Crookston in its last annual convention, expressed strong opposition to the building up of a state constabulary, and as an expression of the judgment of those who handle municipal matters the opinion of the convention was worthy of serious consideration.

The position taken by the crime commission is a sensible one. They have neither recommended the introduction of a state police force nor decided that a state constabulary should not be employed. They have advised that the subject raises so many questions that a wise judgment cannot be passed upon it until sufficient time has been given to investigators to go into all phases of the subject so that they may be prepared to report after two years of careful study. Passing this investigation over to an interim commission, which will study the systems in other states, is a recommendation of the crime commission that, if followed, will make possible a thorough knowledge of the question before a report is made two years hence.

In asking that a federation of peace officers be formed which will have as its head an officer at the state capitol who will be named by the board of control, the governor and the supreme court, the commission has followed the suggestion of the League of Municipalities which recommended that a means be found for relating the work of the peace officers of the municipalities.

The suggestion that the present officers may be used to better advantage by the introduction of some federated effort is a good one and it may be that, during the two years in which the interim commission is at work upon its investigation of the police systems of other states where the state constabulary has already been introduced, it will be found that, by unifying the activities of the peace forces of the state, such results have been secured that the employment of a state police force has become unnecessary.

THE FILIBUSTER

PERHAPS the day will come when some intelligent majority will correct some of the obviously unwise rules according to which the senate works. Both sides take advantage of the filibuster when they are in a position to hinder the program of the administration by so doing. Neither party is immune from the miserable trait which leads to the use of the filibuster for the purpose of blocking legislation proposed by the majority party. President Wilson's administration suffered from the use of this method of holding up legislation, and the present administration has had a taste of the same medicine during the attempt to secure a vote on the Dyer anti-lynching bill.

Such a rule allows the opposition to hold up indefinitely legislation that has a beneficial purpose so that the administration may not secure credit for passing such legislation. And, in turn, when the opposition becomes the administration, what is then the opposition, may renew the fight, using the same tactics, and the silly waste of time goes on.

If such procedure were used in the average community meeting there would soon be something done to remedy the defect; but in the senate, where precedent holds such power and where changes are not readily considered, the merry game of wasting the nation's time and money goes on without much challenge.

When party advantage becomes subservient to public interest there will be a change in the rules of the game, but the change will not be made until such an attitude takes the place of the party interest that now predominates.

It is possible that parties will realize in time that the people are getting tired of this unnecessary delay in the legislative halls. Out of just such procedure here is born that resentment in the people which leads to the wish to make any kind of a change that is in the nature of a change.

CHILD LABOR LEGISLATION

WHILE there is a growing feeling that the growth of bureaucratic government must be checked, and that the federal government must not be looked to as the big policeman who will right all the wrongs of the many states, there are nevertheless some wrongs that can only be righted when the national consciousness demands that federal legislation outlaw the wrongs, which some, in their ignoble and selfish attitude to life, claim as rights in states where such abuses of better standards are allowed.

This is true of the use of child labor in factories. Nothing but greed and exaltation of profits above life can raise a voice in the defense of taking children out of the schools to use them as cheap labor in industry.

This robbing of children of their right to a good physique, the acquiring of an education and, therefore, the foundation of good character and good citizenship must be stopped.

Arguments to the effect that the children are there because their parents desire that they aid in the support of the home, and other similar arguments, are not sufficient to call for the perpetuation of a system that works a grave injustice on indefensible children. Nothing can be much more censurable than the exploitation of children for economic advantage. If homes cannot be supported without the aid of school children there is something wrong

with the homes or the system. One thing is certain, the children ought not to be required to pay the penalty for the sins of their elders. The best intelligence of America is demanding that this reflection upon our western civilization be removed, and that as soon as possible.

THE "radical" minority in congress is there through an expression of the people's will as expressed by their ballots. The people who sent them there will be the final judges of their actions and words.

THE law of supply and demand is active on the high seas, and the shipping interests are having a strenuous time out-bidding each other for patronage. Menus are going up and rates are coming down.

OPPONENTS of change in government are up against it when asked to present any satisfactory reason for the time-honored filibuster. The opposition is using it most effectively right now.

EXPLORES say that the Arctic seas are warmer and that the glaciers have melted. Minnecotans will agree that something must have happened somewhere.

If you don't happen to like another's policies, then kill him, seems to be the law in many countries in Europe. We don't go that far in America.

WHAT people don't know about education they won't tell during next week. It is educational week. Everybody is asked to look wise.

THE ship subsidy bill has crossed the house but faces a stormy passage through the senate before it makes port.

YEAST FED IN MILK TO CALVES AND COWS

Yeast fed to calves and also to cows in milk at the Minnesota Experiment Station, University Farm, had no appreciable effect on the growth and development of the young animals or on milk production by the cows. As no real advantage was found in its use, the conclusion was that the rations generally fed to calves and cows contain an ample supply of vitamin B which is carried in yeast.

The experiments were prompted by the fact that decided advantages had been claimed for the use of yeast in the human diet. Foreseeing a tremendous demand for its product if it could be shown to stimulate the growth and production of dairy animals, one of the large yeast companies of the country agreed to pay all expenses of and furnish all the yeast necessary for a thorough-going experiment by dairy division and biochemistry division men at the Minnesota station. The trials were carried on for more than a year under the immediate direction of Dr. C. R. Eckles, chief of the dairy division, and Dr. L. S. Palmer, biochemist. Two half-time assistants, Vernon Williams, and Harold M. Harshaw, graduate assistants in dairying and chemistry respectively, were employed.

Forty-two calves were used in four experiments and tests were made with eight cows in milk. Results in every case were negative in character. Yeast was added to the rations of newly dropped calves and denied in the rations fed a second similar group, or "check" group, of dairy calves. The effect of yeast was tried out in this way in the ordinary ration, in a typical ration under good conditions, in what might be called a poor ration, and in a ration—including whole milk—generally fed to promising purebred

stock. Eight cows in milk were used in an experiment covering three months.

Experiments parallel to those on the cattle were carried out by using rats as subjects. These experiments showed, among other things, that no advantage is to be derived from feeding animals a larger amount of vitamin B than is necessary for their normal development. When young rats were fed milk from the yeast-fed cows as the sole source of vitamin B they grew better for a time on a smaller amount of milk than when the milk from the cows not receiving yeast was used. These results were the only ones indicating any advantage to be derived from the use of yeast in the ration of dairy cows.

"WHAT IS THE CHAMBER OF COMMERCE?"

(By O. J. Bouma, Secretary)

One of the functions of this community club, ("The Brainerd Chamber of Commerce") is to advertise the city of Brainerd and Crow Wing county. During the past year emphasis has been placed upon tourist and agricultural advertising. Many hundred letters come to the desk of the secretary which give an opportunity when answering them, to enclose descriptive circulars and call attention to the advantages of this county as a summer playground and also as a desirable place to settle in, those seeking farm homes.

The maps which were issued by the Chamber of Commerce have been sent to all parts of the United States and have been very effective in boosting the summer resort business.

Over two hundred photographs of the lakes surrounding our city were made in cooperation with the official photographer of the Northern Pacific railway.

The Chamber has been represented at conventions in St. Paul, Minneapolis, Hibbing, St. Cloud and Bemidji where talks were given, always emphasizing the natural resources of this county. The American Sunday School Union, The Rural Carriers convention, The Ford Dealers convention, State Federation of Labor, and the Minnesota Sunday School Association convention are among the recent large conventions which have afforded opportunity to give publicity to this community.

A letter to every motion picture producer in the United States was very effective and promises to bring permanent results in the future.

Name plates for automobiles were distributed in large numbers, and many reports show this to be one of the best means of advertising a city.

The splendid work done by the publicity committee in promoting the lengthening of the tourist season will undoubtedly bring ever increasing results and will be continued another year.

In the next article we will call attention to the work being done to assist in the development of the agricultural portion of our county.

STATE CONSTABULARY GOES OVER

THE Minnesota crime commission in recommending that the question of calling into existence a state constabulary be given a further two years of investigation has taken a sensible position. During the crime wave of one year ago, which has not yet receded to any marked degree though there is some slight evidence of a let up, there were those who believed that a state police force should be organized and used to check the growing criminal tendencies of the state. This belief was held by many in our commonwealth, including many who are concerned with law enforcement and legal procedure.

On the other hand there were many who were convinced that the taking of the police powers away from municipalities and counties and placing them under the direction of the state would result in adding new problems, even though some good might come out of the change.

The League of Municipalities, meeting at Crookston in its last annual convention, expressed strong opposition to the building up of a state constabulary, and as an expression of the judgment of those who handle municipal matters the opinion of the convention was worthy of serious consideration.

The position taken by the crime commission is a sensible one. They have neither recommended the introduction of a state police force nor decided that a state constabulary should not be employed. They have advised that the subject raises so many questions that a wise judgment cannot be passed upon it until sufficient time has been given to investigators to go into all phases of the subject so that they may be prepared to report after two years of careful study. Passing this investigation over to an interim commission, which will study the systems in other states, is a recommendation of the crime commission that, if followed, will make possible a thorough knowledge of the question before a report is made two years hence.

In asking that a federation of peace officers be formed which will have as its head an officer at the state capital who will be named by the board of control, the governor and the supreme court, the commission has followed the suggestion of the League of Municipalities which recommended that a means be found for relating the work of the peace officers of the municipalities.

The suggestion that the present officers may be used to better advantage by the introduction of some federated effort is a good one and it may be that, during the two years in which the interim commission is at work upon its investigation of the police systems of other states where the state constabulary has already been introduced, it will be found that, by unifying the activities of the peace forces of the state, such results have been secured that the employment of a state police force has become unnecessary.

THE FILIBUSTER

PERHAPS the day will come when some intelligent majority will correct some of the obviously unwise rules according to which the senate works. Both sides take advantage of the filibuster when they are in a position to hinder the program of the administration by so doing. Neither party is immune from the miserable trait which leads to the use of the filibuster for the purpose of blocking legislation proposed by the majority party. President Wilson's administration suffered from the use of this method of holding up legislation, and the present administration has had a taste of the same medicine during the attempt to secure a vote on the Dyer anti-lynching bill.

Such a rule allows the opposition to hold up indefinitely legislation that has a beneficial purpose so that the administration may not secure credit for passing such legislation. And, in turn, when the opposition becomes the administration, what is then the opposition, may renew the fight, using the same tactics, and the silly waste of time goes on.

If such procedure were used in the average community meeting there would soon be something done to remedy the defect; but in the senate, where precedent holds such power and where changes are not readily considered, the merry game of wasting the nation's time and money goes on without much challenge.

When party advantage becomes subservient to public interest there will be a change in the rules of the game, but the change will not be made until such an attitude takes the place of the party interest that now predominates.

It is possible that parties will realize in time that the people are getting tired of this unnecessary delay in the legislative halls. Out of just such procedure here is born that resentment in the people which leads to the wish to make any kind of a change that is in the nature of a change.

CHILD LABOR LEGISLATION

WHILE there is a growing feeling that the growth of bureaucratic government must be checked, and that the federal government must not be looked to as the big policeman who will right all the wrongs of the many states, there are nevertheless some wrongs that can only be righted when the national consciousness demands that federal legislation outlaw the wrongs, which some, in their ignoble and selfish attitude to life, claim as rights in states where such abuses of better standards are allowed.

This is true of the use of child labor in factories. Nothing but greed and exaltation of profits above life can raise a voice in the defense of taking children out of the schools to use them as cheap labor in industry.

This robbing of children of their right to a good physique, the acquiring of an education and, therefore, the foundation of good character and good citizenship must be stopped.

Arguments to the effect that the children are there because their parents desire that they aid in the support of the home, and other similar arguments, are not sufficient to call for the perpetuation of a system that works a grave injustice on indefensible children. Nothing can be much more censurable than the exploitation of children for economic advantage. If homes cannot be supported without the aid of school children there is something wrong

with the homes or the system. One thing is certain, the children ought not to be required to pay the penalty for the sins of their elders. The best intelligence of America is demanding that this reflection upon our western civilization be removed, and that as soon as possible.

THE "radical" minority in congress is there through an expression of the people's will as expressed by their ballots. The people who sent them there will be the final judges of their actions and words.

THE law of supply and demand is active on the high seas, and the shipping interests are having a strenuous time out-bidding each other for patronage. Menus are going up and rates are coming down.

OPPOSITION of change in government are up against it when asked to present any satisfactory reason for the time-honored filibuster. The opposition is using it most effectively right now.

EXPLORES say that the Arctic seas are warmer and that the glaciers have melted. Minnesotans will agree that something must have happened somewhere.

If you don't happen to like another's policies, then kill him, seems to be the law in many countries in Europe. We don't go that far in America.

WHAT people don't know about education they won't tell during next week. It is educational week. Everybody is asked to look wise.

THE ship subsidy bill has crossed the house but faces a stormy passage through the senate before it makes port.

YEAST FED IN MILK
TO CALVES AND COWS

Yeast fed to calves and also to cows in milk at the Minnesota Experiment Station, University Farm, had no appreciable effect on the growth and development of the young animals or on milk production by the cows. As no real advantage was found in its use, the conclusion was that the ration generally fed to calves and cows contain an ample supply of vitamin B which is carried in yeast.

The experiments were prompted by the fact that decided advantages had been claimed for the use of yeast in the human diet. Foreseeing a tremendous demand for its product if it could be shown to stimulate the growth and production of dairy animals, one of the large yeast companies of the country agreed to pay all expenses of and furnish all the yeast necessary for a thorough-going experiment by dairy division and biochemistry division men at the Minnesota station. The trials were carried on for more than a year under the immediate direction of Dr. C. R. Eckles, chief of the dairy division, and Dr. L. S. Palmer, biochemist. Two half-time assistants, Vernon Williams, and Harold M. Harshaw, graduate assistants in dairying and chemistry respectively, were employed.

Forty-two calves were used in four experiments and tests were made with eight cows in milk. Results in every case were negative in character. Yeast was added to the rations of newly dropped calves and denied in the rations fed a second similar group, or "check" group, of dairy calves. The effect of yeast was tried out in this way in the ordinary ration, in a typical ration under good conditions, in what might be called a poor ration, and in a ration—including whole milk—generally fed to promising purebred

stock. Eight cows in milk were used in an experiment covering three months.

Experiments parallel to those on the cattle were carried out by using rats as subjects. These experiments showed, among other things, that no advantage is to be derived from feeding animals a larger amount of vitamin B than is necessary for their normal development. When young rats were fed milk from the yeast-fed cows as the sole source of vitamin B they grew better for a time on a smaller amount of milk than when the milk from the cows not receiving yeast was used. These results were the only ones indicating any advantage to be derived from the use of yeast in the ration of dairy cows.

"WHAT IS THE CHAMBER
OF COMMERCE"

(By O. J. Bouma, Secretary)

One of the functions of this community club, ("The Brainerd Chamber of Commerce") is to advertise the city of Brainerd and Crow Wing county. During the past year emphasis has been placed upon tourist and agricultural advertising. Many hundred letters come to the desk of the secretary which give an opportunity when answering them, to enclose descriptive circulars and call attention to the advantages of this county as a summer playground and also as a desirable place to settle for those seeking farm homes.

The maps which were issued by the Chamber of Commerce have been sent to all parts of the United States and have been very effective in boosting the summer resort business. Over two hundred photographs of the lakes surrounding our city were made in cooperation with the official photographer of the Northern Pacific railway.

The Chamber has been represented at conventions in St. Paul, Minneapolis, Hibbing, St. Cloud and Round Bay where talks were given, always emphasizing the natural resources of this county. The American Sunday School Union, The Rural Carriers convention, The Ford Dealers convention, State Federation of Labor, and the Minnesota Sunday School Association convention are among the recent large conventions which have afforded opportunity to give publicity to this community.

A letter to every motion picture producer in the United States was very effective and promises to bring permanent results in the future.

Name plates for automobiles were distributed in large numbers, and many reports show this to be one of the best means of advertising a city. The splendid work done by the publicity committee in promoting the lengthening of the tourist season will undoubtedly bring ever increasing results and will be continued another year.

In the next article we will call attention to the work being done to assist in the development of the agricultural portion of our county.

TWO ICE RINKS FOR THE CITY

One for Kiddies at Gregory Park.
Other for Young People and
Adults 10th and Laurel

LATTER 400 BY 300 FT. SURFACE

Park and Playground Committee of
Chamber of Commerce Takes the
Matter in Hand, Assuring Success

Oh Skinny, get your skates quick,
and hurry. Bring your shiny clubs
and everything.

Brainerd is assured of two fine
skating rinks for this winter, thanks
to the big heartedness of the business
men of the city, and elaborate plans
are being carried out to make this
king of all winter sports a big feature
for the coming season.

There will be two rinks, one for
the little folks in Gregory park,
where they can gather all by them-
selves and not be in the way of or
molested by the older skaters.

The big municipal rink, the largest
and finest ever made in Brainerd,
will be located on Tenth street
South, between Laurel and Norwood
streets. This spot was chosen on ac-
count of its ideal setting and its cen-
tral position, being easily accessible
from all parts of the city.

The ice surface will be 400 by 300
feet, which is ample in size to take
care of any crowd of skaters, and
still have enough room for all. There
is already an old warming house on
the site, placed there a number of
years ago for a small rink, and this
will be used in addition to the new
warming house that was built last
winter and which will be moved
down to the new location.

The rink will be well lighted in
the evenings, and a paid attendant
will always be on hand, to keep the
fires in the houses and to police the
premises.

As stated above, this skating rink
is made possible by the generosity
of the business men, under the aus-
pices of the Park and Playground
committee of the Chamber of Com-
merce. Carl Wright and John F.
Woodhead have taken upon their
shoulders the burden of the work and
the responsibility of the success of
the undertaking, which is really a
gift from the business interests of the
city to the young people.

A visit to the location of this win-
ter playground brings home the fact
that it could also be used for a to-
boggan slide in conjunction with the
rink, and it may be that this feature
will also be added, should sufficient
interest in the sport be manifested.

There is no reason why Brainerd
should not take full advantage of
the winter season which is ahead of
us, and make a big feature of these
cold weather pastimes. No more
healthy exercise can be found than
skating, skiing and tobogganing. It
is hoped that young and old alike
will help make this winter one long
to be remembered on account of the
success of these sports.

Woman's Relief Corps

The Woman's Relief Corps will meet
Wednesday afternoon at 2:30 sharp
at the Y. M. C. A. rooms for election
of officers. All members please at-
tend.

AGAIN COUNCIL HAS NO QUORUM

There was no meeting of the city
council Monday evening, no quorum
being present. The faithful who did
come for the meeting were Aldermen
Michael, Brusegaard and Anderson.
On account of the business which
has accumulated since the last meet-
ing, and the work of making up a
tax levy for the coming year, it
will be necessary to hold a special
meeting later in the week.

LOWELL SCHOOL TAKES ACTIVE PART

Furnishes Its Quota Towards Educa-
tional Week With Fine Pro-
gram

PHYSICAL CULTURE EXERCISES

S. R. Adair of Rotary Club Voiced
Need of More School Room in
Brainerd

The Lowell Parent-Teachers Asso-
ciation furnished their quota to-
wards educational week, with an in-
spiring program, Monday night, in
the assembly room.

The children gave a series of phys-
ical culture exercises that were per-
fect in precision.

The Misses Bloomstrom played beau-
tiful selections on piano and saxo-
phone, while Miss Haake, East
Brainerd's sweet little songstress,
again made us forget our troubles.
Miss Eschman a usual made the
piano talk.

Rev. Frederick Errington of the
First Congregational church, spoke
on Minnesota's place in the educa-
tional world, and on our needs along
school housing lines. Rev. Errington's
charm as a speaker held the in-
terest of the audience and we will be
glad to hear him again.

Mr. Adair of the Rotary Club also
spoke interestingly of the needs of
our people for more school room. A
resolution was passed endorsing the
work of the Rotary Club along this
line.

President Mrs. Elmer Forsberg ap-
pointed her committees for the com-
ing year, and Mrs. Gemmell, of the
school board made a few remarks
about children's books, on sale at the
book store. Mrs. Stein, chairman of
the Thanksgiving relief committee,
being absent, the report was made by
a chairman of another organization,
showing that the Lowell school had
responded nobly to the call for relief.

A short social meeting followed
the regular meeting.

Bethlehem Lutheran Church

There will be a stereopticon lec-
ture on China at 7:45 o'clock this
evening, by Rev. Arthur S. Olson,
missionary to China. Everybody
will be welcome.

Rev. Olson is home on a furlough,
and is giving his lectures in a num-
ber of Northern Minnesota cities.
Tomorrow evening he will speak of
the same subject in the Eklund Lu-
theran church at South Long Lake.

Look out for the storm.

ROAD REPORTS FOR THE WEEK

County Highway Engineer Walter M.
Murphy Speaks of Sate Roads
in His Jurisdiction

MERRIFIELD ROAD GOOD SHAPE

White Line Roads of the County are
Generally in Very Good Con-
dition

County Highway Engineer Walter
M. Murphy gives out the following
road report on the condition of all
state roads under his jurisdiction.

State road No. 1. (13th street)
Good. First six miles to be graveled
immediately. Balance of road to
south county line is finished.

State road No. 2 (Merrifield and
north) Ash avenue and Mill street
have been graded at the county ex-
pense since last report. From bridge
to Merrifield, good. North of Merrifield,
first three miles are good,
thence to new construction work,
rough. Six miles of this construction
work is fair, travel going directly
over the work now, instead of detour-
ing as formerly. Old road to Emily
is good.

State road No. 5 (Deerwood and
Bay Lake) From Flint corner north
to Bay Lake, good. New construc-
tion work into Deerwood, fair. This
has been smoothed down with tra-
ctor and blade during the recent thaw.

State road No. 8 (Crosby to Emily
and north) Crosby north to Missis-
sippi river bridge, take detour through
Wolford over white line, good. First
six miles north of bridge, rough.
Thence to Emily, very good. Emily
north to Cass county line, fair. Ron
hill has been surfaced and is in good
condition. The Camp Creek bridge
is also in good shape now for travel.

State road No. 9. This is a newly
designated road, authorized at the
meeting of the county commissioner
only last Saturday. It starts at a
point on the Brainerd-Little Falls
trunk highway at a point one mile
north of Ft. Ripley and extends east
through the lower tier of townships
to the 13th street road, over which it
jogs one mile to the north, then con-
tinuing east and meeting trunk high-
way No. 18 at Wigwam Bay on Mille
Lacs lake.

Mr. Murphy reports the white
line roads in the county generally are
in very good condition, those in the
northern section being a little better
than those in the south, where there
is more clay.

Mill Baptist Aid

The Mill Baptist Mission Aid so-
ciety will meet at the home of Mrs.
Leure, 1024 Whately avenue, North-
east, Wednesday afternoon.

Card of Thanks

We wish to thank the kind neigh-
bors and friends and the various or-
ganizations for all the help and sym-
pathy extended and the beautiful
floral offerings at the time of the
passing away of loved husband and
uncle.

MRS. A. F. SORENSON
MR. RASMUS NIELSON

MASS MEETING AT MILL SCHOOL THURSDAY

There will be a mass meeting held
at the Mill school Thursday evening
at 8 o'clock for the purpose of or-
ganizing a Parent-Teachers meeting.
Everyone is cordially invited, and
refreshments will be served.

AGRICULTURAL INQUIRY

Limited Number of Sets Secured by
Congressman Knutson for Dis-
tribution

To Editor Dispatch:
"I have been fortunate in securing
a limited number of sets of the com-
plete report of the Joint Commission
on Agricultural Inquiry.

This report contains much valuable
information pertaining to farm con-
ditions and railroad rates on farm pro-
ducts and is a report that will be es-
pecially valuable to farm owners and
operators.

So long as my quota holds out, I
shall be pleased to send a copy of the
report to anyone requesting it."

Sincerely yours,

HAROLD KNUTSON,
Member of Congress

SCENIC WAY PAVING

Mesaba Range Pushing Idea of Ex-
tending Paving from Elk River
Via Aitkin to Grand Rapids

The Mesaba range towns, as re-
ported from Hibbing, are backing the
proposition of extending the paving
of the Scenic Highway from Elk River
via Aitkin to Grand Rapids.

The proposition has been taken up
at Aitkin and it is expected that in-
termediate points will soon become
actively interested in the project.
The scenic highway comes through
Elk River, Princeton, Aitkin and on
to Grand Rapids. At present the
roads from Elk River are not in the
best condition. With the comple-
tion of such a strip of pavement this
north country would be more easily
available to the tourist and traveler
from the southern part of the state.

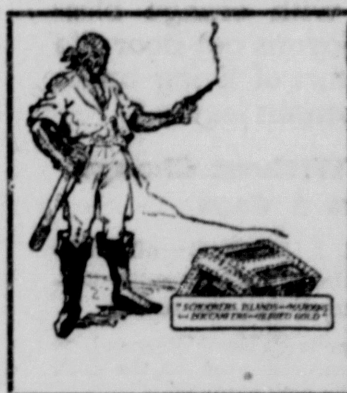

The proposition will be placed be-
fore every commercial club on the
west range and will also be present-
ed to the commercial clubs of Hib-
bing, Chisholm and Buhl.

Card of Thanks

We wish to thank our many
friends and neighbors for their kind-
ness and help and beautiful floral of-
ferings in our recent bereavement.
We especially thank the Fraternal
Order of Eagles for their kindness.
MRS. WM. F. BOURQUIN,
and Children

ROAD REPORTS FOR THE WEEK

County Highway Engineer Walter M.
Murphy Speaks of Sate Roads
in His Jurisdiction

MERRIFIELD ROAD GOOD SHAPE

White Line Roads of the County are
Generally in Very Good Con-
dition

County Highway Engineer Walter
M. Murphy gives out the following
road report on the condition of all
state roads under his jurisdiction.

State road No. 1, (13th street)
Good. First six miles to be gravelled
immediately. Balance of road to
south county line is finished.

State road No. 2 (Merrifield and
north) Ash avenue and Mill street
have been graded at the county ex-
pense since last report. From bridge
to Merrifield, good. North of Merrifield,
first three miles are good, thence
to new construction work, rough.
Six miles of this construction
work is fair, travel going directly
over the work now, instead of detour-
ing as formerly. Old road to Emily
is good.

State road No. 5 (Deerwood and
Bay Lake) From Flint corner north
to Bay Lake, good. New construc-
tion work into Deerwood, fair. This
has been smoothed down with tra-
ctor and blade during the recent thaw.

State road No. 8 (Crosby to Emily
and north) Crosby north to Missis-
sippi river bridge, take detour through
Wolford over white line, good. First
six miles north of bridge, rough.
Thence to Emily, very good. Emily
north to Cass county line, fair. Ron-
hill has been surfaced and is in good
condition. The Camp Creek bridge
is also in good shape now for travel.

State road No. 9. This is a newly
designated road, authorized at the
meeting of the county commissioner
only last Saturday. It starts at a
point on the Brainerd-Little Falls
trunk highway at a point one mile
north of Ft. Ripley and extends east
through the lower tier of townships
to the 13th street road, over which it
jogs one mile to the north, then con-
tinuing east and meeting trunk high-
way No. 18 at Wigwam Bay on Mille
Lacs lake.

Mr. Murphy reports the white
line roads in the county generally are
in very good condition, those in the
northern section being a little better
than those in the south, where there
is more clay.

Mill Baptist Aid

The Mill Baptist Mission Aid so-
ciety will meet at the home of Mrs.
Leure, 1024 Whitely avenue, North-
cast, Wednesday afternoon.

Card of Thanks

We wish to thank the kind neigh-
bors and friends and the various or-
ganizations for all the help and sym-
pathy extended and the beautiful
floral offerings at the time of the
passing away of loved husband and
uncle.

MRS. A. F. SORENSON

MASS MEETING AT MILL SCHOOL THURSDAY

There will be a mass meeting held
at the Mill school Thursday evening
at 8 o'clock for the purpose of or-
ganizing a Parent-Teachers meeting.
Everyone is cordially invited, and
refreshments will be served.

AGRICULTURAL INQUIRY

Limited Number of Sets Secured by
Congressman Knutson for Dis-
tribution

To Editor Dispatch:
"I have been fortunate in securing
a limited number of sets of the com-
plete report of the Joint Commission
on Agricultural Inquiry.

This report contains much valuable
information pertaining to farm condi-
tions and railroad rates on farm pro-
ducts and is a report that will be es-
pecially valuable to farm owners and
operators.

So long as my quota holds out, I
shall be pleased to send a copy of the
report to anyone requesting it."

Sincerely yours,

HAROLD KNUTSON,
Member of Congress

SCENIC WAY PAVING

Mesaba Range Pushing Idea of Ex-
tending Paving from Elk River
Via Aitkin to Grand Rapids

The Mesaba range towns, as re-
ported from Hibbing, are backing the
proposition of extending the paving
of the Scenic Highway from Elk Riv-
er via Aitkin to Grand Rapids.

The proposition has been taken up
at Aitkin and it is expected that in-
termediate points will soon become
actively interested in the project.
The scenic highway comes through
Elk River, Princeton, Aitkin and on
to Grand Rapids. At present the
roads from Elk River are not in the
best condition. With the comple-
tion of such a strip of pavement this
north country would be more easily
available to the tourist and traveler
from the southern part of the state.

The proposition will be placed be-
fore every commercial club on the
west range and will also be presented
to the commercial clubs of Hib-
bing, Chisholm and Buhl.

Card of Thanks

We wish to thank our many
friends and neighbors for their kind-
ness and help and beautiful floral of-
ferings in our recent bereavement.
We especially thank the Fraternal
Order of Eagles for their kindness.

MRS. WM. F. BOURQUIN,
and Children

EASTERN F. B. CONFERENCE A HARD NUT

By HENRY L. FARRELL
United Press Sports Editor

New York, Dec. 5.—Proposals for the organization of an eastern football conference are being made again at the close of one of the most successful seasons in the history of the gridiron.

While much of its old prestige has been dimmed by the rise of other smaller institutions to place of prominence in football, the "Big Three" still has enough power and influence to be looked upon as a leader in the east.

Without Yale, Harvard and Princeton, a conference could function in the east, but it could not occupy the place that the Western Conference does in the middle-west.

Bob Fisher, the Harvard coach, speaking unofficially, has expressed a favorable opinion on the conference idea.

Bill Roper, the Princeton football mentor, says it is not necessary. Yale, without taking an attitude against the conference, says that Yale would be reluctant to join such an organization.

However, at New Haven, it is intimated that the new football agreement entered into by Yale, Harvard and Princeton may be the foundation of a conference of some kind in the future.

The big difficulty in organizing an eastern conference would be in defining what constituted the eastern section. While there are ten members of the Western Conference, the territory represented is much smaller than the area now generally regarded as the east.

Pennsylvania, geographically, is not exactly east, but it is considered such from a football standpoint. Georgetown is ranked both in eastern and southern circles and West Virginia is even regarded as an eastern team.

Yale, Harvard, Princeton, Cornell, Dartmouth, Pennsylvania, Columbia, Colgate, Penn State, Pittsburgh, Washington and Jefferson, Lafayette, Lehigh, Rutgers, New York University, Syracuse, Army, Navy, Carnegie Tech, Boston College, Fordham, Holy Cross, Brown, Swarthmore, and several other universities would be eligible for membership.

Try to pick ten out of that bunch and you'd have a nice little war on your hands over the ones omitted.

There has also been some talk of a football "Landis" for the east, but the coaches in general scoff at the idea as being unnecessary. They point out that football is not a professional sport, that it is not threatened by commercialism and that faculty hands are the best for its administration.

Nothing seems to have been wrong with football this season. As long as there is rivalry between colleges there will be talk that So-and-So is having his expenses paid at Suchandsuch and as long as there are old grads there will be some players getting a helping hand, but it is not dangerous enough to be a cause for alarm.

Big universities like Harvard, Yale and Princeton, where the proceeds of football foot the bills for all athletics, hardly will encourage the idea of a conference. They are big enough to select their own opponents and they are big enough to demand only good drawing cards.

With a conference idea prevailing, any of the big elevens would have to hook two or three games a year with opponents that wouldn't draw a handful of spectators.

That's an item, too!

Nervous?

Thousands of sufferers from sleeplessness, irritability, dyspepsia, headache, fits, melancholy, find relief by taking

Dr. Miles' Nervine

Why don't YOU try it? Have you used Dr. Miles' Anti-Pain Pills? Ask your Druggist

Primitive Man Brewing Herbs

The savage caveman sought for an elixir of life to give him strength, endurance and physical power to resist disease. He grubbed and culled from nature medicinal herbs and plants to relieve and restore him in time of sickness—he found no elixir of life.

But the savage and caveman of the past left to mankind his valuable herb and plant discoveries.

Away off in Oriental Europe in the famous Balkans live a race of people called Bulgarians, who consider themselves still young at 60, and only in their prime at 80. Thousands live to be over 100 years. Sickness and disease is almost unknown among them.

For many centuries the Bulgarians have relied upon nature to keep them hale and hearty. They use an herb tea compounded of roots, barks, leaves, herbs, plants and flowers.

This Bulgarian Herb Tea when brewed and taken hot at bedtime aids nature to remove the dangerous poisons from the system. Fresh-

ens and improves the blood, tones and stimulates the liver, and keeps the stomach and bowels in a healthy condition. Bulgarian Herb Tea was first introduced in America about twenty years ago by H. H. Von Schlick of Pittsburgh, Pa. Its fame has been so great that today it is used the world over and praised by millions of sufferers fighting disease and warding off old age weaknesses. They include happy girls budding into womanhood or women crossing precarious thresholds of life.

For centuries the Bulgarians have used this famous herb tea for nearly every human ill.

To break up colds quickly, a cupful taken hot at bedtime gives splendid results. Its gentle laxative qualities aid nature to relieve constipation, indigestion, biliousness, stomach and bowel trouble.

Just ask your druggist today for a trial package of Bulgarian Herb Tea, and you will never regret the time you spent in reading this item.

EASTERN F. B. CONFERENCE A HARD NUT

By HENRY L. FARRELL
United Press Sports Editor

New York, Dec. 5.—Proposals for the organization of an eastern football conference are being made again at the close of one of the most successful seasons in the history of the gridiron.

While much of its old prestige has been dimmed by the rise of other smaller institutions to place of prominence in football, the "Big Three" still has enough power and influence to be looked upon as a leader in the east.

Without Yale, Harvard and Princeton, a conference could function in the east, but it could not occupy the place that the Western Conference does in the middle-west.

Bob Fisher, the Harvard coach, speaking unofficially, has expressed a favorable opinion on the conference idea.

Bill Roper, the Princeton football mentor, says it is not necessary. Yale, without taking an attitude against the conference, says that Yale would be reluctant to join such an organization.

However, at New Haven, it is intimated that the new football agreement entered into by Yale, Harvard and Princeton may be the foundation of a conference of some kind in the future.

The big difficulty in organizing an eastern conference would be in defining what constituted the eastern section. While there are ten members of the Western Conference, the territory represented is much smaller than the area now generally regarded as the east.

Pennsylvania, geographically, is not exactly east, but it is considered such from a football standpoint. Georgetown is ranked both in eastern and southern circles and West Virginia is even regarded as an eastern team.

**There is no
"Just As Good"**

Don't accept substitutes—don't buy baking powder that is supposed to be just as good as Calumet—don't think that a big can at a low price means a real saving. **Use**

CALUMET
The Economy **BAKING POWDER**

Avoid disappointments. Millions of housewives are using Calumet because of its dependability. They know that the bakings will always turn out just right. Pies, cakes, biscuits, muffins, will always be perfectly raised, light and wholesome if you use Calumet, the real economical leavener.

Calumet sales are 2½ times as much as that of any other brand—always call for it.

THE WORLD'S GREATEST BAKING POWDER

About every one you meet in California is happy and care-free.

The golden sunshine, the singing birds, the valleys fragrant with orange blossoms and violets, the joyous out-door life and the ease and comfort of living make "cares drop off like autumn leaves."

**Straight Through Without Change
in less than 3 days**

via the LOS ANGELES LIMITED—all Pullman. Spacious observation and lounge car. Barber. Valet. Delicious dining car meals.

Through sleeper leaves Minneapolis via North Western Line at 6:15 p.m., St. Paul 6:55 p.m. and goes on the LOS ANGELES LIMITED at Omaha next morning.

The CONTINENTAL LIMITED is another fine train leaving Omaha 1:20 a.m. (sleepers ready 10:00 p.m.) Connects with morning trains from Twin Cities.

Both go the scenic way to Los Angeles—the Rockies, colorful Weber Canyon, Salt Lake City with its Mormon Temple, Tabernacle, marvelous organ and Great Salt Lake, the Nevada Canyons and the orange groves.

WRITE FOR FREE BOOKLETS You can spend the winter very economically in Southern California. Apartments and rooms at rentals as low as at home. Let us tell you about it and send you illustrated booklets and hotel, apartment and bungalow lists.

Primitive Man Brewing Herbs

The savage caveman sought for an elixir of life to give him strength, endurance and physical power to resist disease. He grubbed and culled from nature medicinal herbs and plants to relieve and restore him in time of sickness—he found no elixir of life.

But the savage and caveman of the past left to mankind his valuable herb and plant discoveries.

Away off in Oriental Europe in the famous Balkans live a race of people called Bulgarians, who consider themselves still young at 60, and only in their prime at 80. Thousands live to be over 100 years. Sickness and disease is almost unknown among them.

For many centuries the Bulgarians have relied upon nature to keep them hale and hearty. They use an herb tea compounded of roots, barks, leaves, herbs, plants and flowers.

This Bulgarian Herb Tea when brewed and taken hot at bedtime aids nature to remove the dangerous poisons from the system. Fresh-

ens and improves the blood, tones and stimulates the liver, and keeps the stomach and bowels in a healthy condition. Bulgarian Herb Tea was first introduced in America about twenty years ago by H. H. Von Schlick of Pittsburgh, Pa. Its fame has been so great that today it is used the world over and praised by millions of sufferers fighting disease and warding off old age weaknesses. They include happy girls budding into womanhood or women crossing precarious thresholds of life.

For centuries the Bulgarians have used this famous herb tea for nearly every human ill. To break up colds quickly, a cupful taken hot at bedtime gives splendid results. Its gentle laxative qualities aid nature to relieve constipation, indigestion, biliousness, stomach and bowel trouble.

Just ask your druggist today for a trial package of Bulgarian Herb Tea, and you will never regret the time you spent in reading this item.
